In re application of Kazuo Sakuma

Art Unit: 1651

Application No.: 10/066,224

Examiner: Ms. Ruth A. Davis

Filed: 02/01/2002

For: An antiviral therapeutic drug with therapeutic effects on syndromes ~~Preventive and therapeutic agents for microbe-related syndromes including HIV~~

Dear Ms. Ruth A. Davis:

Please find a communication from the Applicant (Kazuo Sakuma) in charge of this application.

As the Examiner indicated, the Applicant files the documents in response to the Office Action mailed on February 23, 2005. I file the amended specification and claims in both markup version and cleanup version, respectively, and the added and amended drawings in cleanup version. In Remarks, the Applicant responds to the objection indicated by the examiner concerning the specification, submits amendments and argues the opinions. I ask the examiner to reconsider and examine further the specification and claims.

Please charge any additional costs incurred by or in order to this document or required by any requests for extension of time.

Respectfully submitted,

Kazuo Sakuma
